Date: November 29, 2021
Re: Manpower Support

We invite you to come work with us and support our front-end module assembly operations.

With CAMI ramping up to two shifts in January-2022 we are currently hiring short-term contract employees (till April 2022) to support our production team on both days and afternoon shifts.

A perfect opportunity for someone looking to find temporary employment for the winter months.

We are looking for people to join us on contract till April 2022 and support CAMI.

Please reach out to our Human Resources Department at ingersollemloyment@butcherent.com or drop in your resume at Butcher Engineering, 17 Underwood Road, Ingersoll.

You can also reach us by phone at 519-425-0999 ext:6239

Thank you
