

# Sales Summary

Your auction has the Transition To Live Event feature. This allows you to see the maximum bid amount for each item after the online auction has ended, providing you the option of continuing proxy bidding at the live event. This is further explained in the [Transition To Live Event section](#) of the Help page. If you see Sold in the Max Bid column, the item was either purchased using the Buy Now option or it was marked as sold to an online or live event bidder.
