

# STILL CURIOUS ABOUT TOASTMASTERS?

Toastmasters is here to help build your leadership and communication skills for both personal and professional means!

Do you want to have more confidence speaking up for your team, for yourself? Sharing your ideas with a group of peers? Speaking in front of management or at a union meeting? Are you working towards or wanting to stand out in a leadership position? Maybe you simply want to say “um” less when you speak? Perhaps you have a wedding speech to prepare that is keeping you up at night?

The best way to get over the fear of public speaking is by DOING!

If you are interested in growing your communication skills in 2023 in a safe and inviting environment that is encouraging you to step out of your comfort zone, please consider coming out to the:
