

ATTENTION

Hello Local 88. We have received multiple calls and emails and are currently working through them all. Due to the lists we received there have been some segmenting issues with the South zone SUB jobs. Also, as a result of delegates being knocked off the list with the formatting upload We have decided to STOP the current voting process.

Together with simply voting we are correcting all issues that have been identified.

Voting will be reset for everyone back to the beginning. As soon as it's fixed we will announce the new start time.
