Please be advised that on Thursday, January 2 and Friday, January 3, 2025, both production shifts in Vehicle Assembly (Quality, GSC, General Assembly, Paint and Body) will be scheduled to work on day shift. Unless otherwise notified, all production team members are scheduled to work day shift, commencing at 7:00 am.

Production team members in Battery will follow their regular shift schedule.

Maintenance Associates will follow their regular shift schedule.

Production team members interested in scheduling authorized time off on these two production days are encouraged to discuss this option with their departmental management.
