

UPDATE

UNIFOR (LONDON REGIONAL) ACTION CENTRE

BETTER JOBS ONTARIO

The Government of Ontario has officially extended the Better Jobs Ontario program.

We are pleased to share some great news for our members. The Better Jobs Ontario program has been extended to include training duration up to two years, and increasing funding up to \$35,000 for eligible participants.

This is a significant increase from the previous limits and means more opportunities for our members to retrain, upgrade their skills, and access new career paths without the financial burden.

If you are interested in starting this application, please reach out to us at the Action Centre.

Take advantage of this exciting change, and invest in your future!
